TABLETHROWS

premium table solutions for any display need

Perma Logo Table Throws

A high temperature transfer of computer cut material onto polyester twill fabric. Maximum logo size is 25" h x 45" w. Perma Logo vinyl features the same damage-proof lettering used on most professional & amateur sports jerseys and uniforms.

Kaleidoscope Table Throws

Comprised of several choices, these throws can be printed with our brilliant Kaleidoscope Select or Classic dye sublimation processes.

Two great options:

- Print the entire Table Throw Kaleidoscope featuring photographic images, color gradations, or complex images over the entire full or economy throw.
- A full-length front Kaleidoscope piece sewed to any standard color fabric resulting in a full or economy throw.

Kaleidoscope Logo Applique Table Throws

An excellent, low cost alternative, Kaleidoscope logo appliques are produced by creating a dye sublimation image which is profile cut and permanently adhered to any standard color twill fabric with an industrial fabric adhesive. This is a great solution for photographic images, color gradations, or images with complex detail, such as government or university seals, corporate logos or any photographic image with defined edges. Maximum logo size is 25" h x 45" w.

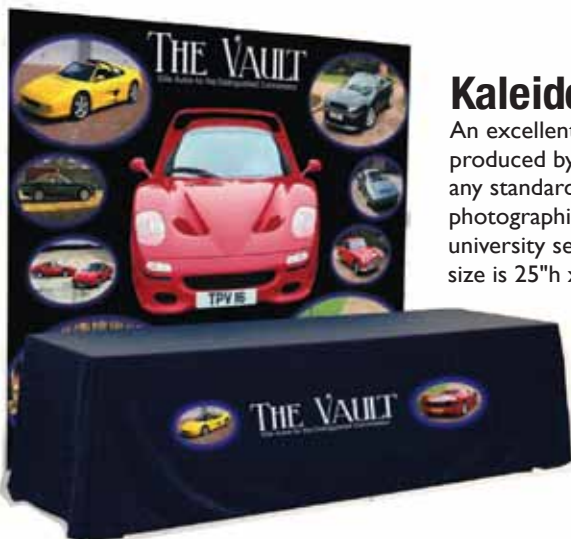

Table Runners

One piece of any standard color fabric that drapes over a full or economy size blank throw. Choose from Perma Logo, Kaleidoscope Logo Applique or a full Kaleidoscope dye sublimation throw. Table Runners make a great companion to any blank throw.

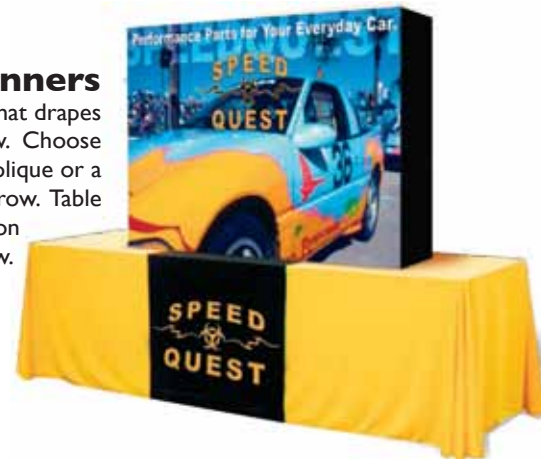

Table Throw Bags

Convenience and style describe the Table Throw Bags. Constructed of durable black canvas, these bags are great for transporting your throw. Table Solution bags can be customized with your corporate logo.
